Sept. 28, '43

Dear Andy,

How goes everything? Well I suppose you are occupied with Tubelake femininity eh? See you know, our club the Barrett Dynamites - if you ever heard of it - had approximately eighteen members. Of the 18 five remain at Heart Mountain. The remainder - thirteen members - expatriated and were sent or are to be sent to Tubelake. Sad Club isn't it. I didn't know most of the boys were so pro-japanese. Or maybe they're just mad at the whole evacuation setup.

I read in the Sentinel that your neighbor, Amy Mastemoto, or is it Matsumoto was the first Heart Mtn. girl to enlist in the WACS. She must have the touch of patriotism the boys above lack. Or is she just sick and tired of Camp life. By the way how is camp life affecting you? Going nuts yet? You will soon. I went nuts but I didn't know it until now.

Has it snowed anymore at camp yet? The weather here its still as hot as blazes. But according to the boss's wife we should expect a change pretty soon.

We've been stacking beans this week. its dirty work. Its a wonder we don't get TB or sumpin. But we should be through by the time this letter reaches you.

Well I miss your letter. Write wunt you.

Sincerely,

Hoped Gaco
