

Ithaca, N. Y.

April 10, 1894.

Senator J. M. Carey.

Dear Sir;

Will you kindly inform me respecting woman's suffrage in Wyoming as to the following points:-

1. What proportion of the population is female?
2. How generally do women continue to exercise the privilege of suffrage as they did at first?
3. Do women run for office?
4. Is much weight given to their opinions, by any of the political parties?

5. Are citizens of Wyoming in general agreed in opinion on woman's suffrage?

6. Is it, all things considered, a benefit to the State?

My own opinion is against the expediency of female suffrage, & woman's full entrance into politics, and I wish to know if there is not another side to the question than the one we commonly hear.

Any facts regarding the subject will be most gratefully received.

Very Respectfully Yours

Wm. Orlin C. Fletcher
