Two Eastern Air Lines pilots reported Saturday that their plane Friday night passed a tremendous wingless aircraft that shot 40 feet of flame from the back end and was traveling 500 - 700 miles per hour.

Capt. [redacted] and Co-pilot [redacted] said the object looked like a B-29 fuselage blown up and was brilliantly lighted with 2 decks of big square windows. The object passed within several hundred feet of the DC-3 and then shot up into the clouds.
